We are looking for a Product Designer to create user-centered designs for our digital products. The ideal candidate will have experience in both UX and UI design.

KEY RESPONSIBILITIES

- Design user interfaces for web and mobile applications
- Conduct user research and usability testing
- Create wireframes, prototypes, and high-fidelity designs
- Collaborate with product managers and engineers
- Contribute to design system and guidelines

QUALIFICATIONS

- 3+ years of product design experience
- Portfolio demonstrating design process and outcomes
- Proficiency in design tools (Figma, Sketch, Adobe XD)
- Understanding of user-centered design principles

REQUIRED SKILLS

- UX research and testing
- UI design and prototyping
- Design thinking and problem-solving
- Collaboration and communication

COMPENSATION

- Competitive design salary
- Equity options
